THE BEST PLACE TO SHOP, AFTER ALL
Goldsmith's
MEMPHIS' GREATEST STORE

GOLDSMITH'S BUYS BIG BUILDING IT NOW IS OCCUPYING

Hill Property Main Street and Gayoso Avenue Home of Department Store Since 1901 Acquired.

The J. Goldsmith & Sons company completed a deal Wednesday whereby it becomes the owner of the Hill property, Main street and Gayoso avenue, the location which the Goldsmith department store has occupied since 1901. The transaction also included the purchase of the two Treadwell estate buildings at the rear, which makes the property extend from Main street to Front street, a depth of 330 feet, with a frontage of 150 feet on Main street and 150 feet on Front street. The store now occupies the entire property, together with the old Bi-marek hotel property, adjoining the Hotel Gayoso, which is under lease. The transaction was one of the largest, if not the largest, ever recorded in Memphis business property. The amount of the purchase price was not announced.

The building was erected by the late Napoleon Hill and was purchased from his daughter, Mrs. Mary Hodgson, of Waukegan, Wis. The building was all in the best of condition and have been kept modern and remodeled especially for the Goldsmith store's use. No additional building is contemplated at this time, it is said.

Jacob Goldsmith, the head and founder of the Goldsmith store, started in 1870, and has built up the business until it is now one of the most progressive department stores in the South. During the half century of his business career the store has constantly had in view the day when the business would occupy its own building. The transaction completed Wednesday fulfilled that ambition, and points the way to still further expansion of the business.

The Hill building, one of the handsomest business buildings on Main street, is admirably adapted in design and location to the department store trade. With the building under its own ownership the company proposes to keep up with the latest developments of the business by making such alterations from time to time as the greatest possible convenience to the public may require.

SCHOOLS CROWDED; REMEDY SOUGHT

Although actual figures showing the total enrollment at all of the public schools of the city will not be received by the board of education until the end of the week, unofficial reports indicate that all of the white schools are taxed beyond their capacity.

The enrollment at the Central high school has broken all records and this condition exists in practically all of the white schools. Just what steps are to be taken by the board to relieve the crowded conditions has not been made public. Temporary structures are additions are not practicable in all cases and none of the modern movable schools that were recommended by the United States survey has been installed.

The problem to be solved by the board is a serious one and while many angles it is apparently without solution in view of the shortage of funds, members of the board are devoting much thought to the matter and some practical solution will doubtless be forthcoming.

There are no figures available as yet to indicate the condition in the various negro schools. During the past three years the enrollment at the negro schools has shown a decrease, but whether or not this will hold good can only be determined when the official figures are submitted.

Some school officials believe that the exodus of negroes from the North to the South may affect the school enrollment to some extent and that possibly there may be an increase over the three previous years, however, this is only speculation.

Plans are already under way for temporary relief for the Peabody school and the patrons of Lauderdale school have been promised relief, but until temporary frame structures can be constructed or modern movable schools installed, the shortage of space in the other schools of the city are taxed far beyond their capacity and under these conditions teachers and principals are being the best that can be done.

Rotarians Doing Good Work In Drive for Boy Scout Fund

Members of the Memphis Rotary club in conjunction with the effort brought out Wednesday and Thursday in raising the \$10,000 fund for the Boy Scout fund in the city of Memphis. The fund is not being made daily by each team but the partial reports received indicate that at Memphis the fund is being raised in a most successful manner that is fully up to the expectations of the campaign leaders.

There has never been the least doubt in the minds of the Rotarians that their efforts would be other than successful for, as stated at the luncheon Tuesday, "whatever the Memphis Rotary club undertakes to do, it does."

AMUSEMENTS

Orpheum.

Martin Beck, managing director of the Orpheum circuit, is presenting at the Orpheum this week the big card of the present vaudeville season in the Marion Morgan dancers in their dance drama of the time of Attila and the Huns. The lover of the dance is under the impression that everything in the line of dance conception has already been done, but something which is new. Her classical and Greek dancers offer a performance which gets entirely away from the frivolous dance of the day. They bring back in a most effective way the days when the old Greeks idolized the dance for its educational and physical value, when they worshipped it for its interpretative beauty and when they accorded it to an importance that has almost been lost sight of in these modern times. The act is pantomimic in its nature and each one of the dancers is skilled in the art of pantomime.

Their dancing tells a story that is made plain to the average spectator. Every motion of the individual dancer bears a relative importance to the whole production, each evolution has a meaning vital to the whole story as an important word has to a sentence.

Thus the act is an important one, when judged solely from the standpoint of the pantomimic production. Molded into the act are such qualities as can be produced by the most graceful dancing, the most exquisite music, lights and colors which blend harmoniously, scenery which represents the best stage artistry and costumes which are the acme of costume art. The music joins with the dancing in a most effective way in which the pantomimic revelations are achieved.

Loew's Lyceum.

With "The Bullet-Proof Lady," one of the most mystifying acts ever presented in vaudeville, as the headline, the new bill for the last half of the week opens at Loew's Lyceum, Thursday.

In this unique act Capt. Frank Leffel, a former army sharpshooter, apparently fires a bullet through the body of his pretty companion, Miss DeAlmer. The audience sees the bullet shatter a pane of glass behind the young woman's back after it seems to have gone directly through the body.

A comedy skit that carries one back to childhood days is presented by Romair and Ward, who have an original offering in "The Missing Acquaintance." Jack Reddy, character comedian, Langman and Woods, entertainers of the minstrel variety, and Wellington and Silva, eccentric jugglers, complete the bill.

In "Broken Commandments," the film feature starring Gladys Brockwell, a woman is forced to choose between her husband and the father of her child.

There is a new-to-be-forgotten surprise in the climax.

Motion pictures taken during the recent Boston riots and others of occasions featured Gen. Pershing and Cardinal Mercier, are included in Loew's News Weekly.

Water "Leaked" Into Milk Too Often And Dairyman Is Fined

M. P. Hudgins, Whitehaven, was fined \$25 in city court Wednesday afternoon on a charge of violating the pure food law. He was alleged to have diluted his milk with water.

F. A. Mantel, city chemist, testified he found milk handled by Hudgins contained 10 per cent added water. Hudgins claimed the water leaked into the milk by reason of a faulty cooler. Judge Flahugh was inclined to consider the explanation until it was found Hudgins was in court on a similar charge a month ago.

J. S. Stanton, front street, was fined \$25 on a charge of selling aged eggs. Mr. Stanton denied he sold the eggs and said he would appeal the case.

The demand for Pepsin has become universal. Its tonic effects soothe irritated nerves. Its ingredients are pure.

GAS IN THE STOMACH IS DANGEROUS

An Indication of Serious
Stomach Disturbances, How
to Overcome.

Gas and the wind in the stomach accompany indigestion, flatulence, and other digestive ailments which have a neutralizing effect on the stomach acids. Instead, get a small package of Bis-Mag Tablets from Hammer-Ballard Drug Co., or Washburn-Lyle Drug Co., or any druggist, and take two tablets in a quart of glass of water right after eating. This will drive the gas, wind and flatulence out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain.

Bis-Mag Tablets are a safe, harmless and inexpensive compound of Bismuth and Magnesia, and are used by thousands of people who enjoy their meals with no more fear of indigestion.

The Colon Is the Home of Health—Keep It Clean!

FALL HOUSE CLEANING is at hand. It's a hard job, at best. But consider what an impossible task it would be if the house hadn't been getting its regular daily cleaning all these months!

Long before this no one could have lived in it. The accumulated dust and dirt, which is fairly easy to down day by day, would have so clogged the quarters that they would be uninhabitable.

Your Colon is the house where your health lives. It has different "rooms" in which your daily physical welfare "lives". These "rooms" are long and narrow. So they are easily clogged. And when constipation clogs them, your health has to get along the best it can in a home that isn't fit to live in, any more than a house clogged up with dust and dirt is fit for you and your family to live in.

Nujol is the broom that will keep this "home of health" in perfect order all the time.

Nujol is the only helper that will do this without turning things topsy-turvy and upsetting all the "rooms"—just as house-cleaning does. By daily use of Nujol you can free yourself from all the disease-risk, discomfort and inefficiency that come from a clogged colon.

Nujol is not a medicine. Not the least particle of it is absorbed into the system. It is a clear, tasteless, odorless, absolutely HARMLESS softener and lubricant. A baby can take it with perfect safety. It doesn't upset the stomach or anything else. It simply keeps the home of your health CLEAN and COMFORTABLE.

Get a bottle of Nujol from your druggist to-day, and send for free booklet—"Thirty Feet of Danger."

Nujol Laboratories, STANDARD OIL CO. (NEW JERSEY), 50 Broadway, New York.

Warning: Nujol sold only in sealed bottles bearing the Nujol Trade Mark. All imitations look on Nujol! You may suffer from substitutes.
